
BleedIO Tech Change of Address Note

BleedIO Tech Change of Address Note

Purpose

Some historical legal and registration documents in the DataRoom may show an earlier BleedIO address. This note is included so investors can reconcile those filings with the company's current headquarters reference.

Current Headquarters

BleedIO Tech's current headquarters reference for investor materials is:

851 Duportail Rd, 2nd Floor, BleedIO Tech
Chesterbrook, PA 19087

Historical Address References

Certain registration or credential documents may still reflect a prior operating address because they were issued before the current headquarters reference was adopted or before all registrations were refreshed.

That does not indicate a governance problem. It reflects normal administrative timing across state, federal, and vendor registration systems.

Investor Takeaway

Use the Chesterbrook address as the current BleedIO headquarters reference. Treat older address references in legacy filings as historical records unless a newer updated filing is provided in the DataRoom.
