TAM, SAM, SOM Market Analysis

BLEEDIO TECH
July 2026 | Confidential Investor Materials

MARKET OPPORTUNITY AT A GLANCE

$129.1B–$132.9B	$5.05B	$88M–$123M	$204M–$249M
TAM — TOTAL ADDRESSABLE	SAM — SERVICEABLE	SOM — BASE CASE	SOM — OPTIMISTIC
Global wireless connectivity across 3 verticals	~4% of TAM — 5-year realistic reach with current GTM	2026–2029 revenue at expected conversion rates	Lufthansa maritime accelerates 2–3×

TAM — TOTAL ADDRESSABLE MARKET
$129.1B–$132.9B
Every environment where self-healing mesh connectivity creates value — all geographies, all segments

SAM — SERVICEABLE ADDRESSABLE MARKET
$5.05B
North America 70% · W. Europe 20% · Emerging 10% — bounded by product readiness and channel maturity

SOM — SERVICEABLE OBTAINABLE
$88M–$123M base · $204M–$249M optimistic
5-year cumulative revenue, bottoms-up from pipeline

How SAM is bounded ~4% of TAM
locMESH is commercial today; netMESH (drone swarm, advanced tactical) is not yet production-ready — excluding ~$43B of TAM. Snap-on and Lufthansa IS channels are still ramping; APAC and emerging markets excluded.

How SOM is bounded ~2% of SAM
Pipeline maturity (48 fire departments in active discussion), channel velocity (12–24 months for OEM/reseller ramp), binary enterprise conversions, and SBIR-gated defense entry.

Optimistic case drivers
Lufthansa maritime scale-out (first ships 2026 toward fleet deployment), Snap-on OEM signing and ramping earlier, 80–100 fire departments, 2nd O&G major in 2027–2028, first international pilots.

MARKET BY VERTICAL

Industrial	TAM $66.4B+
Indoor location / RTLS	$55B
Industrial wireless sensor networks	$11.4B
Anchors: Chevron · Lufthansa IS · Snap-on	
SOM (optimistic)	$104M–$129M

Public Sector	TAM $4.1B–$7.9B
Fire, EMS, police, city operations	27,000+ US FDs
Fastest sales cycle	1–2 months
Anchors: 2 FDs signed · 48 pipeline · IAFF	
SOM (optimistic)	$16M

Defense & Autonomy	TAM $58.6B
MANET / tactical mesh	$38.6B
Drone swarm mesh + military RTLS	$4.3B + $15.7B
CAGE · SAM · UEI registered · ITAR-free	
SOM (optimistic)	$16M–$51M

GROUNDED IN TODAY'S PIPELINE

$48K	$839K	17×	3
CURRENT ARR	WEIGHTED PIPELINE ACV (12-MO)	PIPELINE / ARR RATIO	VERTICALS WITH SIGNED ANCHORS

Sources & method: TAM from Gartner Indoor Location Services 2024 ($55B), Grand View Research WSN 2024 ($11.4B), Mobility Foresights MANET 2024 ($38.6B), Research & Markets drone swarm 2025 ($4.3B), MarketsandMarkets GPS-denied RTLS 2025 ($15.7B), USFA registry (Public Sector). SAM bounded by product readiness, channel maturity, and geography. SOM built bottoms-up from the customer pipeline matrix at expected conversion rates (base) and accelerated channel scenarios (optimistic).
